

Baby Tripod Legs EFP 150 mm

SKU: 3882-3

Rigid camera support delivering optimum picture control for EFP applications

PRODUCT DESCRIPTION

The Baby Leg tripod is quick and easy to set-up and provides excellent operational flexibility. It is a low level version of the Pozi-Loc tripod with a minimum height of 28 cm / 11 in to enable very low shots. Vinten tripods are precisely manufactured using the highest quality materials, to optimise torsional rigidity.

Key features

- Torsional rigidity minimises spring back
- Leg clamps for class leading stiffness
- Toggle leg clamps clearly show the tripod is locked
- Leg catch for easy transport and storage
- Joint clearances minimise free movement when panning
