

Vector 430i Pan and Tilt Head

SKU: V4089-0001

The ideal choice for EFP camera set-ups where virtual reality is required

PRODUCT DESCRIPTION

The Vector 430i encoded head is compact and lightweight, simple to rig and convenient to transport. It includes all the functionality associated with Vinten's renowned Vector heads, including infinitely adjustable Perfect Balance and smooth TF drag technology.

Key features

- Precise, real time digital electronic positioning of pan and tilt
- Infinite perfect balance across a wide payload and tilt range
- TF drag for outstanding whip pan control
- $\pm 90^\circ$ tilt range across a wide payload range
- Ergonomic positioning of controls
- Digital balance readout for quick repeatable set-ups
- Tilt centrelock to safely swap high payloads
- Compatible with Vinten Quick-Fix for rapid coupling to tripods or pedestals
- Back lit controls for low light conditions
