

Vector 75 Pan and Tilt Head

SKU: V4095-0001

A versatile head for all Studio and OB broadcast applications covering ENG/EFP and box lenses, teleprompters and Talent Monitors.

PRODUCT DESCRIPTION

The Vector 75 is ideal for broadcast cameras and lenses, whether ENG or full box lenses. The unique pantographic balance mechanism makes camera configuration adjustment quick and simple. This counterbalance mechanism, combined with the Vinten infinitely adjustable LF drag system provides the ultimate in smooth, precise quality of movement.

- Retractable "T" bar slide plate positioner
- Blue LED level bubble illumination providing high contrast in any light
- Standard prompter bar mountings
- Replaceable pan bar fixings for a long serviceable life
- Integral carry handle for portability in OB situations
