

## VEGA Host Computer

**SKU:** V4090-0001

### VEGA Control System

- Windows 10 rackmount chassis designed to support robotics control system server and client software installations
- Integrated video capture card
- Integrated serial interfaces for legacy device support
- Supports Vinten VEGA & Fusion software installation
- Includes compact keyboard and mouse

## PRODUCT DESCRIPTION

The VEGA Host Computer provides an ideal platform for building both a VEGA Server and a VEGA client. Incorporating video capture, serial ports for legacy devices, and dual network interfaces, the Host provides everything needed to build a robotics control server or client.

Note: where preferred VEGA can be deployed on independently sourced PC hardware that complies to the VEGA minimum specification and recommended configuration.

Also suitable for use with the Fusion robotics control system software.
