Vinten **Vantage**

Go beyond a PTZ and future proof your studio

The only compact robotic head that offers ultimate motion control and unmatched flexibility in the studio while enabling broadcast-quality video - an ideal alternative to the traditional PTZ.

Camera and lens agnostic
Uniquely compatible with the latest cameras including pro-camcorders

Cost effective
All the functionality of a high-end solution at a lower price

Compact and lightweight
Discreetly fits within any studio environment

Continuous variable speed control
Smooth on-air quality of motion enables high-end moving preset shots

Future proof your studio
Allows you to change your camera and lens as your needs adapt

Quick set up
Works with existing HD-VRC control

From smooth on-air motion to being camera and lens agnostic, the Vinten Vantage is a clear upgrade from the traditional PTZ head since it uniquely enables the user to choose the best camera and lens for their application without limitations.
