

OSPREY studio

The Osprey Studio is a fully functioning studio pedestal for large payloads up to 80kg / 176lb. It is a full studio version of the Osprey elite and is capable of supporting large Vinten Vector heads and the latest range of portable or full facility digital cameras and teleprompters. It can track talent eyelines from a seated to standing position 'on shot' with its extended fully balanced range. It has an inlet valve for any air source, making Perfect Balance easy to achieve. There is a storage area for the camera operator. In addition, the Osprey Studio pedestal includes a pressure gauge for clear and reliable set-up. It has a single brake and selector for both single wheel and 'all wheel' crab steering for working in tight spaces and on shot direction changes. It comes with an integral cable guard for studio use.

- Full, 2-stage balance range for total 'on shot' elevation, perfect for moving from seated to standing talent in game shows, entertainment shows, drama and performances.
- Full crab and steer facilities controlled from a central steering ring for enhanced manoeuvrability and on-shot steering.
- Durable skirted base for ultimate stability. Integral cable guard to prevent cable damage and disturbances to shots.
- Pedestal supplied with Quickfix quick release system & operator storage area.
- Single action parking brake.
